

October 9, 2017  
Quarter 1, Issue 7

Leesville R-IX Middle School Science & Technology

# Nasternak News

## Science Class

Presentations went extremely well this week. We covered the entire Human Body book. Brandon still needs to give his presentation next week for 8th Grade. 8th Grade will review for the test Monday, and take it Tuesday, the 10th. 7th Grade still has 5 presentations to give. So they will probably finish up Tuesday, review Tuesday afternoon in Exploratory and take the Test on Wednesday, the 11th.

5th & 6th finished their 3-D cells, all that have been turned in have been graded and recorded. There were quite a few unique ideas. Trina brought in a Styrofoam ball (Pinterest??). Over all, the projects were a success. We have finished Chapter 3: Cells to Organisms. They will review for the test on Monday and take their test on Tuesday, the 10th.

# End of Quarter This Friday

### *Exploratory*

This week, we will work in Excel, entering data charts and making graphs. Students will learn to enter formulas for mean, median and mode.

### *Garden*

It was too wet to work in the garden last week. We hope to get to the garden this week...weeding, yuk!

### **This week:**

- 7&8: Finish Human Body Presentations  
Notes Test 10/10 & 11
- 5&6: Cells to Organisms  
Notes Test 10/10
- Exploratory...Graphs & Charts
- Garden...weeding

### **IXL Assignments**

#### **Math**

5th: C13, C14, D1

6th: P3, P2

7th: E1, E3, E5

8th: F5, F8, F9
